John Engquist, H\&E Equipment Services' chief executive officer, said, "The strength and momentum in our business continued in the second quarter and was driven by solid improvement in rentals and equipment sales compared to a year ago. Total revenues increased 17.4\%, primarily as a result of an $18.8 \%$ increase in rental revenues and a $22.4 \%$ increase in our combined new and used equipment sales, which remain strong in terms of both demand and margin contribution. As a result, EBITDA increased $22.3 \%$ from a year ago. End user demand continues to build and activity regarding earthmoving equipment and cranes is strong, demonstrating improved economic confidence and cycle expansion."

Engquist concluded, "We believe our concentration and penetration in the industrial sector, particularly the oil patch and petrochemical business along the Gulf Coast, continue to be a major benefit for our business. Rising oil prices and demand for natural gas are spurring capital investment. In Louisiana, where we are headquartered, reports indicate we are in the beginning stages of one the largest industrial expansions of our state's history. We are also excited about the industrial expansion in markets we serve in Texas. Our less industrial focused regions continue to strengthen as well. Our outlook for the balance of 2013 remains positive."
